

## **Procedure to connect to GIAN courses:**

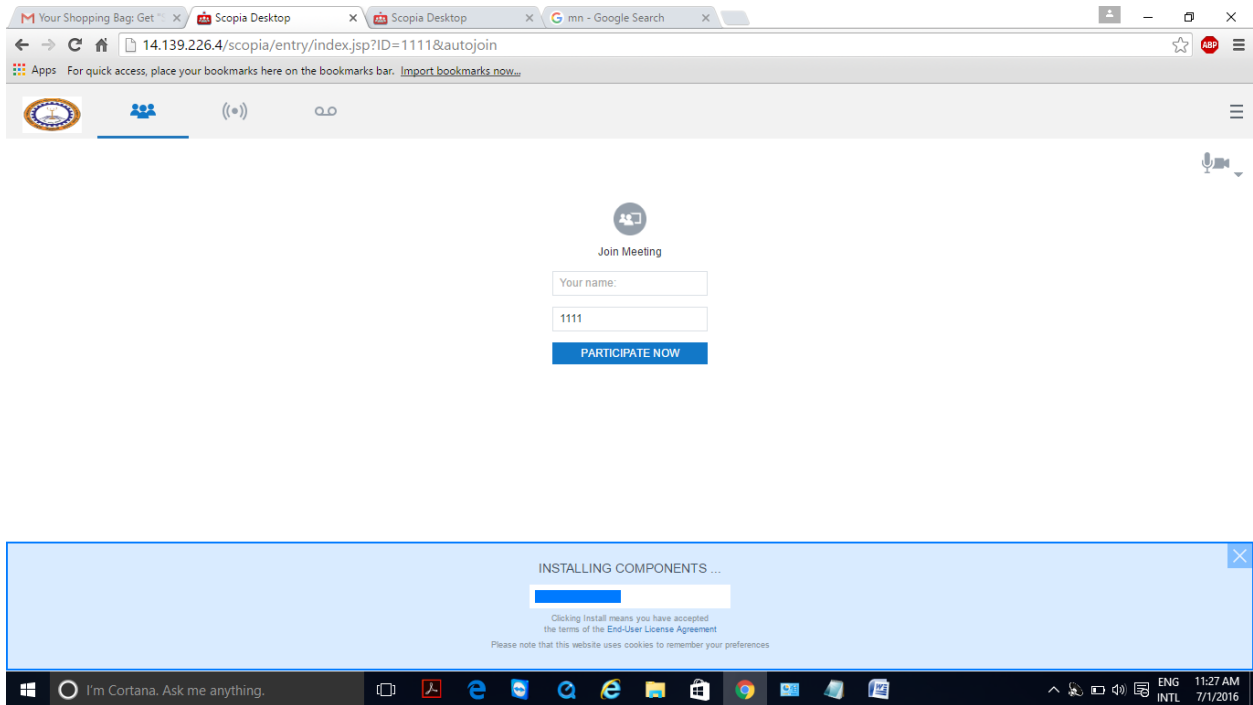

### **Location: NKN-2 (second floor)**

**Step 1:** To connect from your desktop, laptop, tablet or mobile device, go to

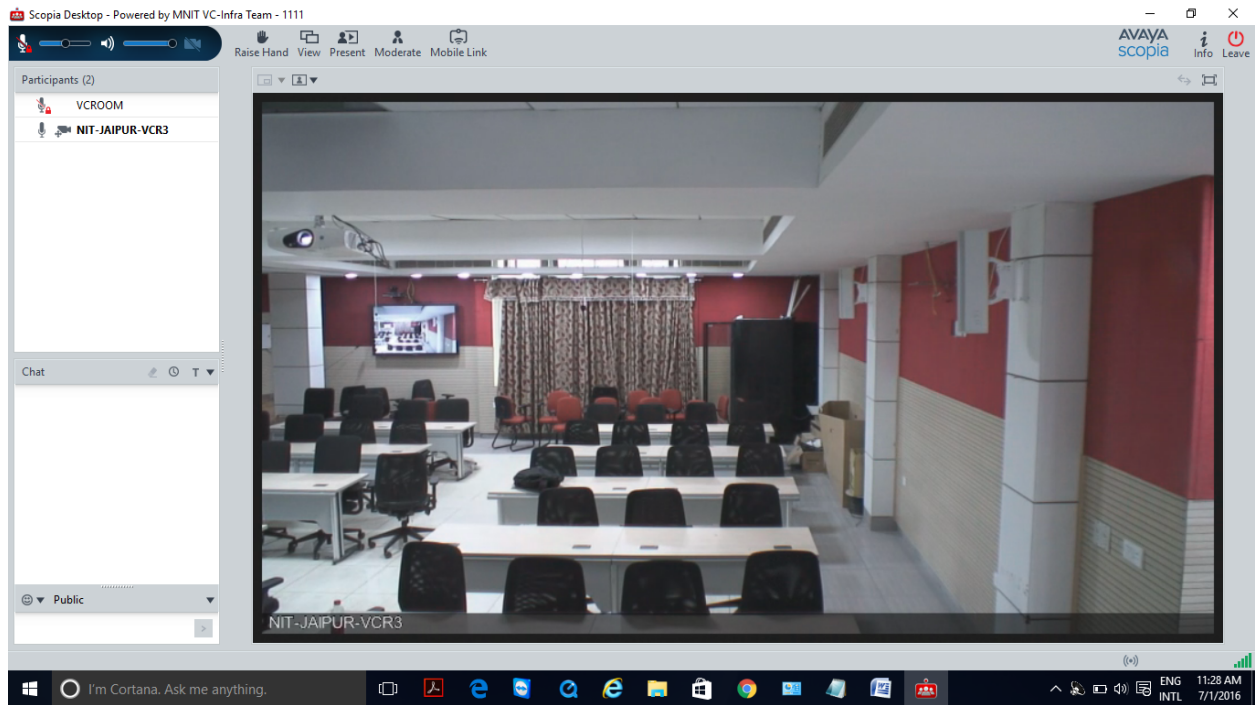

**<http://14.139.226.4/scopia?ID=2222&autojoin>**

The screenshot shows a web browser window with the address bar displaying `14.139.226.4/scopia/entry/index.jsp?ID=1111&autojoin`. The page content includes a "Join Meeting" section with a "Your name:" input field, a field containing "1111", and a blue "PARTICIPATE NOW" button. Below the browser window, a Windows notification banner is visible, stating "THERE ARE UPDATES TO DESKTOP CLIENT COMPONENTS AVAILABLE" for "Conference Client (8.3.300.50)". The notification includes an "INSTALL" button and a note: "Clicking install means you have accepted the terms of the End-User License Agreement. Please note that this website uses cookies to remember your preferences." The Windows taskbar at the bottom shows the Start button, Cortana search, and various application icons, with the system tray displaying "ENG INTL" and the date/time "11:26 AM 7/1/2016".

## Step 2: Install scopia client as asked

**Step 3:** Once the client is up-to-date, then refresh the link or hit F5 one-way conference/webcast will begin automatically.

***Note: This one-way conference/webcast works best on wired network. Use of wi-fi network may cause disconnection or moderate audio/video quality issues.***
