Celebrations for the World Ozone Day 2017

Department of Civil Engineering, Malaviya National institute of Technology in collaboration with Rajasthan State Pollution Control Board (RSPCB) is organizing a one day workshop on ‘**Sustainability of ODS phase out, Kigali Amendment and India's way forward**’. The workshop has been scheduled on 16th September 2017 on the occasion of International Ozone Day.

About the proposed workshop

India has been making substantial efforts for protection of the Ozone layer and has also met all the compliance obligations of the Montreal Protocol. Also, India has played a key role in evolving consensus and finalization of Kigali amendment. As the effort of the Montreal protocol and Kigali amendment is to phase-out both the production as well as consumption of Ozone Depleting Substances (ODS), it is important to create awareness about the above issues, among the various user communities. The major objective of the workshop is to create awareness to the stakeholders on issues relating to ODS. The Specific objectives of the workshop are

1. Sensitising the stake holders on ODS phase-out activities in India including ODS rules and regulations
2. Educating about availability of commercial alternatives to ODS
3. Imparting knowledge about Kigali Amendment to the Montreal Protocol for phase down of Hydrofluorocarbons (HFCs)
4. Creating awareness about good-practices in Refrigeration and Air-conditioning, their servicing sector and building sector

Who can attend

The workshop has been proposed to create awareness about the various aspects of ODS and preservation of the ozone layer. The target group for the workshop is

1. Faculty members of the different educational institution/colleges who are involved in imparting knowledge through environmental science subject.
2. Officials of government organizations who are responsible for enforcing regulations
3. People involved in servicing sector of refrigeration and air-conditioning
4. Students pursuing their studies for post-graduate (M.Tech.) degree in Environmental/ Mechanical engineering

Date: Saturday, 16th September 2017

Venue: Neeti Sabhagar, II Floor, Prabah Bhawan, MNIT Jaipur
