

Objective of the Summer Internship Program

This internship/ training program is designed to keep in mind the need of Undergraduate and Post Graduate Students of Engineering who have enthusiasm to learn the Emerging trends of Electrical Engineering especially the field of Power Electronics application for harnessing Renewable Energy Sources with Simulation and Practical study. This training course shall cover both theoretical as well as the practical aspects which help students not only in their coming final year B.Tech projects but also it will help them in Campus Interview by describing these designing parts to Companies and they can show their ability to work on Software & Hardware platforms. The main theme of training program will oriented around Power Electronics as this subject is a back bone in Electrical & Electronics Engineering which covers all converters section, regulated and unregulated power supplies, gate driver circuits, application in renewable sector and many more. The role of Power Electronics is to process and control the flow of electrical energy by supplying voltages and currents in a form that optimally suit to consumer loads. Power electronics and motion control have emerged as very important technologies in the recent trend of industrial automation. This training program aims to cover those recent features of Power Electronics and their associated applications in form of Simulation and Hardware which is a small contribution to make India to become a Skill Capital of the World.

Course Content

The major course contains of the program are:

- Introduction of Power Electronics and Application in Renewable Energy.
- Introduction of Power Supplies.
- Analog and Digital Design of Electronic System.
- Hands-on practice of Simulating Software.
- Power Electronic Converters- Design, Principle.
- Modelling and Simulation of Electric Vehicle Charging and Discharging.
- Designing & Fabrication of Power Supply.
- Design of Solar and Wind Energy Conversion System.
- Hands-on practice of designing & fabrication of power electronic converters including Gate & Power circuitry.

- Basic of Microcontroller and Pulse Generation
- Challenges and Opportunities in Power Electronic area.

Resource Persons

The various sessions of this internship program will be preceding by faculty members of MNIT Jaipur, faculty of other reputed institutions like IITs, NITs, IIITs and experts from industries: Dr. Vashist Bist, Application Engineer, Texas Instrumentation, Bangalore and Dr. Chinmay Jain, AGM, Shakti Pumps, Indore. During the programme, participants will have lectures from them and will have chance to interact local faculty working in power electronics and machines area.

Eligibility / Target Audience

This summer internship program is targeted towards UG, PG students and Faculty of Govt. / Govt. aided / self-financed engineering colleges who have interested in computer simulation, designing part & fabrication of Power Electronic Circuits and etc. All the undergraduate students who are appearing in the 4th and 6th semester examinations are eligible to apply.

How to Apply / Registration

UG Students (EE/ EEE/ EC)	6500/-
PG Students/PhD	7500/-
Faculty	7500/-

(Note: - PG specialization should be in Power System or Power Electronics).

Fee shall be paid by Demand Draft in favour of “Registrar, MNIT Jaipur” payable at Jaipur. Duly filled application by student in the prescribed format and sponsored by the respective Head of Department, may be sent to the Coordinator so as to reach on or before 22th April 2018. The applicant may also send an advance scanned copy of the application form and DD- copy through E-mail. The selection is on first come first served basis depending upon the availability of the seats. Registration charges are non-refundable for selected participants.

Registration Form

Summer Internship Program

on

Design, Modeling & Implementation of Power Electronic Circuit for Harnessing Renewable Energy Sources

7th May – 7th July 2018

Department of Electrical Engineering
MNIT Jaipur – 302 017 Rajasthan

Name: _____

Category (UG/PG): _____

Branch: _____

Year of Study: _____

Department: _____

Institute: _____

Mailing Address: _____

Phone (M) _____ (O) _____

E-Mail: _____

Accommodation required? **Yes/ No**

Registration fee Details

Draft No. _____ Dt _____

For Rs _____ in favour of “**Registrar, MNIT Jaipur**” is enclosed.

The above information provided is true and to the best of my knowledge. If, selected, I agree to abide by the rules and regulations of the program and MNIT Jaipur.

Date: _____ **Signature of Candidate**

The applicant will be permitted to participate in the above program, if selected.

Date: _____ **Signature of HOD with Seal**

About MNIT Jaipur

Malaviya National Institute of Technology Jaipur (Deemed University) is one of the premier NITs, designated with the status of “Institute of National Importance” by MHRD. The institute was established in 1963, and its campus spreads over 325 acres of lush green area in the central location of Jaipur city. The institute offers undergraduate and postgraduate courses (B.Tech., M.Tech. /MBA/ M.Sc. & Ph.D.) to about 4500 students, in leading fields of engineering, technology, architecture, management & sciences. Through the internationally renowned faculty, laboratories with state of art equipments and excellent infrastructure, the institute is actively engaged in research, consultancy and developmental activities, besides imparting regular teaching.

Electrical Engineering Department

The Department is one of the oldest departments of the institute, offering a fine blend of experience and innovation in teaching. Presently, offering under-graduate and post-graduate studies in Electrical Engineering and Power Systems & Power Electronics Engineering, respectively. The department is home to over 35 research scholars, pursuing Ph.D. in varied fields of Electrical Engineering. The department provides a life-long learning experience, through its state of art laboratories, vast pool of courses, and industry-orientation. A strong collaborative framework with reputed universities in India and abroad, the department offers ample opportunities for individual growth.

About Jaipur

The city of Jaipur also known as Pink City and is the capital and largest city of Rajasthan. Jaipur has the attractions like Hawa Mahal, Amber Fort, Jaigarh Fort, Nahargarh Fort, Jal Mahal, Kanak Vrindavan Valley, City Palace, Jantar Mantar, Albert Hall Museum, Sisodia Rani Garden, Govind Devji Temple, Birla Temple

BENEFITS TO THE STUDENT INTERNS

- Individual Batch-wise staff Allocation & Assistance
- Materials cum Certifications
- Hands on Oriented Training – Preparing for Basics on their domain, and Coding.
- Labs for their preparation

- Certificate on Internship Completion / Implementation

Organizing Committee

Patron

Prof. Udaykumar R Yaragatti, Director, MNIT-Jaipur

Program Advisor

Prof. R.A. Gupta, Professor, Department of Electrical Engineering, MNIT-Jaipur

Program Coordinators

Dr. Arun Kumar Verma, Assistant Professor, Department of Electrical Engineering, MNIT-Jaipur

Dr. Neeli Satyanaraya, Assistant Professor, Department of Electrical Engineering, MNIT-Jaipur

Dr. Vijayakumar Krishnasamy, Assistant Professor, Department of Electrical Engineering, MNIT-Jaipur

Accommodation

Limited accommodation is available in the MNIT Hostels for outstation participants on nominal charge and first come first serve basis. The participant will not be paid any TA/DA. Charges of Institute Hostels are approximately Rs. 230/- per day including food and accommodation.

Dates to remember

Last date of receiving complete registration form	22 th April
Confirmation of selection by E-mail	25 th April
Internship Duration	7 th May to 7 th July

Address for Communication

Dr. Arun Kumar Verma

Assistant Professor
Department of Electrical Engineering,
Malaviya National Institute of Technology,
J. L. N. Marg, Jaipur-302 017, Rajasthan
Mobile: +91-9549650188, +91-9960114808
E-mail- seasrlab.eemnit@gmail.com, arun.ee@mnit.ac.in

Self-financed Summer Internship Program

With Aim

“Make India the Skill India”

On

*Design, Modeling &
Implementation of Power
Electronic Circuits for
harnessing Renewable Energy*
