Preamble (Electronics & ICT Academy)
Government of India had announced a National Policy on Skill Development, which has set a target of skilling 500 million people by 2022 in the domain of Electronics & IT. Under the plan scheme of "Digital India Manpower Development". MeitY has set up seven (07) Electronics and ICT Academies as a unit in 03 IITs, 03 NITs and 01 IIIT with an objective of faculty/mentor development/up gradation in the areas related to Electronics & ICT leading ultimately to improved employability of graduates/diploma holders. MNIT Jaipur has set up such an academy for providing specialized training to faculty and industry persons in the states/UTs of Rajasthan, Gujarat, Daman & Diu, Dadra Nagar Haveli.

(A) Issues-

1. IT Hardware and Electronics Manufacturing industry- availability of properly trained, skilled and qualified manpower
2. Number of quality PhDs generated in IT / Computer Science is very low
3. In E & ICT domain- there is a very high degree of obsolescence of existing technologies and faster emergence of newer technologies

(B) Approach-

1. A focused faculty training/updation programme for IT, Electronics and related sectors
2. Spreading up and continuous updation regarding Emerging Technology
3. Training and consultancy services for Industry
4. Design, Develop and Deliver specialized modules for specific research areas and Industry
5. Providing advice and support for technical incubation and entrepreneurial activities

An intensive one-week training programme is being organized for faculty of engineering and technological institutions. It is also open to persons from industry and doctoral students of Indian organizations. The objective is to provide an exposure to the participants to the recent trends in "Electric Vehicle Infrastructure" through interaction with experts from different parts of the country as well as from other foreign countries. The technical program will include state-of-the-art lectures, discussion/presentation sessions. Programme topics are:

(1) Development of charger for EV charging, (2) EV history, architecture and battery technology, (3) EV infrastructure, charging and control system, (4) Motor and their control for EV, (5) PFC rectifier application, (6) DC-DC converter technology, (7) EV integration to Grid, (8) Vehicle to Grid (V2G) and Grid to Vehicle (G2V) bidirectional power flow

Invited Experts:

Prof. Hemanshu Roy Pota, UNSW Canberra, AUSTRALIA
Dr. Akshay Kumar Rathore, Concordia University, CANADA
Prof. Sheldon Williamson, University Institute of Technology, OSHAWA
