

About MNIT Jaipur

Malaviya National Institute of Technology is one of the premier NITs of India, fully funded by Ministry of Human Resource Development (MHRD), Government of India. The Institute was established in 1963. Its campus spreads over 325 acres of area in the central location of Jaipur city. It imaginatively presents a spectacle of harmony in modern architecture, and natural beauty which enthralls and inspires. The institute was given the status of a National Institute of Technology and Deemed University on June 26, 2002, and proclaimed the Institute of National Importance through Act of Parliament on August 15, 2007. The campus of the institute consists of the institute buildings, halls of residence and staff colony. The Institute offers undergraduate and post graduate (B.Tech., B.Arch., M.Tech., M. Plan., M.Sc., MBA and PhD) programmes to about 4500 students in leading field of Engineering, Technology, Architecture, Management and Sciences. The institute is actively engaged in research, consultancy and developmental activities, beside imparting regular teaching. More than 12,000 students have already been graduated since its establishment.

Architecture and Planning Department

The Department of Architecture was founded in 1988 and the Bachelor of Architecture course was started in 1989 and M Planning, Post graduate course in Urban Planning started in 2008, and the Department also started the Doctoral Programme in 2014. The department is one of the top institutes imparting education in Architecture & Planning in the country.

About Jaipur

Jaipur is a planned medieval city founded in 1727 as the capital of erstwhile Dhoondhar kingdom by King Sawai Jai Singh and planned by the Architect Vidyadhar Bhattacharya on the principle of Vastushashtra. It is one of the most lively, vibrant and functional cities still today. It is also the capital of the state of Rajasthan, located at a distance of around 265 km from national capital Delhi, well connected by the air, rail and road transportation network to other parts of the country. It has a heady mix of tradition and modernity, and famous as Pink City for its predominantly pink/rose and complimentary colour schemes. Jaipur offers a multitude of interesting places and tourist attractions, such as magnificent palaces and forts of Amber, Jaigarh, Nahargarh, City place, besides Hawa Mahal, Jal mahal,, Jantar Mantar etc. situated in the heart of the city. The weather of Jaipur in the month of February is pleasant, and the temperature in the day time remains between 18 to 25°C.

Self-financed Summer Internship Program

On

Design development of Built Environment

20th May to 28th June 2019

Sponsored by TEQIP Phase III

Organized By

Department of Architecture and Planning
Malaviya National Institute of Technology

Jaipur- 302 017 Rajasthan- India

(www.mnit.ac.in)

Objective of the Summer Internship Program

This internship/ training program is designed according to the need of Undergraduate Students of Architecture, especially those who will be working on their design thesis projects soon. The program is structured in a unique way to provide the students with an organized way to approach the design project. This internship program is designed to instill the methodology, from the inception level of choosing the project, to culminating at the preparation of presentation and working drawings. The course would encompass the holistic design approaches for development of the built environment, spread over the domains of different building types. This internship program is anticipated to inculcate not only the fundamental design development concepts but also the technical aspects involved in the requisite design project.

Course Content

The course majorly covers the following topics:

- Identification of appropriate project(s)
- Comprehensive development of architecture program
- Site selection and systematic site analysis
- Site planning and development
- Building regulations and other mandatory provisions
- Climate responsive design development
- Selection and methodology to conduct case study
- Conceptual design development/ form evolution
- Incorporation of architectural services
- Special requirements like energy efficient buildings/ green buildings/ barrier free, use of energy simulation software etc.
- Building materials and construction techniques
- Disaster resistant/resilient building development/ provisions
- Presentation drawings and working drawings

Eligibility/ Target Audience

This summer internship program is targeted at Under Graduate students, on course to their research projects/ thesis projects in Architecture, from Govt./ Govt. aided/ self financed architectural colleges who are interested in understanding the process of design development in a structured and organized way. All the undergraduate students who are about to/ appearing in the thesis semester are eligible to apply.
