MALAVIYA NATIONAL INSTITUTE OF TECHNOLOGY JAIPUR

ACADEMIC SECTION

17 June, 2019

Dear Final Year UG Students,

Attention: All Final Year UG students of 2016 and previous batches

Subject: Mandatory Pre-registration of program electives, advance electives & Open electives for the next Odd Semester of session 2019-20.

In order to facilitate proper planning of academic activities of the next 7th semester of session 2019-20, it is essential for the students to declare their intent to register for the elective courses in advance, before actual start of academic session, through the process of pre-registration. Pre-registration is mandatory for all students who wish to register for 7th semester elective courses. Pre-registration window on ERP will be active from 17 June 2019 to 24 June 2019.

Based on their choices given for elective courses, the courses will be allotted after completion of pre-registration courses on the basis of preference and current CGPA of the students. This allotment will automatically be carried forward in the main registration for the elective courses.

The instruction manual for the pre-registration process on ERP is attached with notification. The students are also advised to go through the attached courses of study available at http://www.mnit.ac.in/academics/Dowload/UG_Scheme.pdf before filling their choices on ERP. Available program and open elective courses are listed on next page.

In case of any technical issue please write to us at erp.acad@mnit.ac.in and regarding courses of study write to us as adug.acad@mnit.ac.in
