

# Expert Lecture

The event commenced at 2pm on 1st Feb, 2019 with the introduction session about our IEEE student branch and an introductory speech about the speaker. Then Dr. Shilpi Gupta from Electrical Engineering department, IIT Kanpur started her talk on Interaction of Quantum Dots with Light and Solid-state Environment.

She explained about the phenomenon of Quantum physics, ongoing researches and future scope. She concluded the lecture with discussing the opportunities for B. Tech students and research scholarship schemes at IIT Kanpur. Then a QA round was held with the audience for resolving queries. A vote of thanks and token of appreciation was awarded to Dr. Shilpi for delivering the expert lecture. The event concluded with the distribution of snacks to the attendees.
