

Report on the national science day 2019

National science day was organized in Government school of MNIT Jaipur on 28th of February 2019. Event started with an awareness generating talk by Amit Kumar Sharma Sir for the young minds followed by distribution of small gifts for attendees. Then, an interactive session was held on demonstrating how science affects our daily lives. This included the demonstration of various interesting science projects with student ranging from 6th to 8th graders. Then a QA session was held and prizes were awarded to all the meritorious students in each class respectively. The event concluded with distribution of participation prizes to all the attendees and a photography session.
