Course Pre-Registration Help Document

Student Login > Registration > Pre-Registration

For Pre-Registration a student needs to select choice/preferenceof the course.
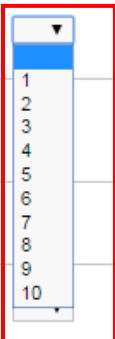

In case of program electives (advance electives) student must give their course choices in each slot and also provide their preference from drop down menu. For example for civil engineering there are two slots for two advance electives. In slot 5(for advance electives) there are two courses. A student is required to put his/her preference in the slot for each of the courses of the slot 5. The same process need to be applied for slot 6 also.

In case of Open Electives student should select first the number of open electives he/she wish to register and accordingly select number of slots. Preference as per choice must be given in the selected course in the slot.
