

## Report on the Expert Talk by Dr. Hiroki Takesue

The event commenced at 2pm on 1st Mar, 2019 with the introduction session about our IEEE student branch and an introductory speech about the speaker.

Tilak ceremony and he was felicitated Saafa (Indian Pagdi) by Dr. Ashish Ghunawat, IEEE student branch counselor, MNIT Jaipur.

Then Dr. Hiroki Takesue, senior Distinguished Researcher of NTT, Japan started his talk on Quantum optics research at NTT: quantum communication and coherent Ising machine.

He explained about the phenomenon of Quantum communications, ongoing research at NTT, Japan and future scope.

He concluded the lecture with discussing the experiences as a research professor at his university.

Then a Question and answer round was held with the audience for resolving queries.

A vote of thanks and token of appreciation was awarded to Dr. Hiroki for delivering the expert lecture. The event concluded with the distribution of snacks to the attendees and photography session.
