About the Institute

The Institute was established in 1963 with the name as Malaviya Regional Engineering College, Jaipur, as a joint venture of the Government of India and the Government of Rajasthan. Subsequently, on June 26, 2002 the college has been given the status of National Institute of Technology and on 15 August 2007, proclaimed as institute of national importance through the act of parliament. The campus spreads over 317 acres of lush green area in the central location of Jaipur city and is imaginatively laid-out with a Picturesque landscape. The Institute offers undergraduate and postgraduate (B.Tech., B.Arch., M.Tech., M.Arch., M.Sc., MBA and PhD) programs to about 4500 students in the leading field of Engineering, Technology, Architecture, Management, and Science. The Institute is fully funded by Ministry of Education (MoE), Government of India. More than 12,000 students have already graduated since its establishment.

About the Conference

International Conference on “Advances in Chemical, Biological and Environmental Engineering (ICACBEE-2021)” provides a premier forum for the presentation of new advances and research results in the field of theoretical, experimental, and applies Chemical Engineering, Ecology, Agriculture, Biological, Environmental, Civil Engineering and Technology, Pharmaceutical Sciences and Medical Sciences. The Conference will bring together leading researchers, engineers, scientists, professionals and policy makers in the domain of interest from around the world. Numerous distinguished keynote speakers from various part of world will share latest scientific knowledge and outcomes related to this Conference over two days.

Topics of Interest

- Environmental Engineering and Sustainable Development
- Process Design and Optimization
- Membrane Based Separation Process
- Advanced Oxidation
- Biology and Cell Microbiology
- Agricultural Engineering
- Product Innovation, Development and Economics
- Environmental Engineering & Management
- Polymer Processing for Waste Management
- Sustainable & Clean Technologies
- Ecology and Climate Change
- Green Organic Synthesis Routes
- Circular Economy Policies on the Environment and Sustainable Growth

Highlights of the Conference

- Keynote lectures by eminent persons.
- Special lectures by industrial person
- All accepted and presented papers will be included in an ISBN numbered conference proceeding
- Publications of selected high quality papers after peer review in the Scopus Index Journal “Asian Journal of Water, Environment and Pollution”

Who can attend

Faculty, scientists, research scholars and students of science, mathematics, engineering, medicine, Law or any related fields from academic institutions, universities or research labs. Senior Engineers/Administrators/Researchers from Industry. Those who are involved in policy making from government or non-government organizations can also participate and contribute their research.

Mode of Conference

Conference will be held on virtual mode using a suitable online platform.
