---

**CORRIGENDUM**

**Tender Notice No. F5(853)ST/MNIT/EE/2021**

The technical specification and compliance sheet mentioned at clause 3.1 and Annexure-I are hereby revised. The bidders are requested to submit their bids as per revised specifications. **The last date of bid submission is extended up to 25.07.2022** for details visit: [www.mnit.ac.in](http://www.mnit.ac.in) and <https://eprocure.gov.in/epublish/app>

However, all other terms& conditions of our NIT will remain unchanged.

Revised technical specifications and Annexure-I

*Deputy Registrar  
(Store & Purchase)*

### 3.1 TECHNICAL SPECIFICATION:

| S No.  | Technical Specifications required |  |   |  |  |
|--|-----------------------------------|--|---|--|--|
| 1. PROGRAMMABLE DC POWER SUPPLY (Quantity-2) |                                   |  |   |  |  |
| Instrument Specifications                    | Input                             | Single Phase, 230V, 50Hz   |   |  |  |
|  | Output                            | Voltage  | 0~120V  |  |  |
|  |                                   | Current  | 0~12.5A   |  |  |
|  |                                   | Power  | 0~1500W   |  |  |
|  | Resolution/Accuracy               | Voltage  | Resolution 0.001V/0.01V/0.1V, Accuracy≤0.4%Umax |  |  |
|  |                                   | Current  | Resolution 0.001A/0.01A, Accuracy≤0.5%Imax      |  |  |
|  | Ripple and Noise 20Hz~20MHz       | Vrms   | 80mV  |  |  |
|  |                                   | Vpp  | 400mV   |  |  |
|  | Load effect                       | Voltage  | Load effect≤0.1%Umax, Source effect≤0.05%Umax   |  |  |
|  |                                   | Current  | Load effect≤0.2%Imax, Source effect≤0.1%Imax    |  |  |
| Transient response time                      |                                   | ≤5ms   |   |  |  |
| Communication                                |                                   | RS-232 (Standard)  |   |  |  |
| Protection                                   |                                   | Output short circuit protection, output overvoltage, overheat, s-terminal over compensation protection, s-terminal, Anti connection protection |   |  |  |
| Warranty                                     |                                   | 1 year or more   |   |  |  |
| 2. PROGRAMMABLE DC POWER SUPPLY (Quantity-2) |                                   |  |   |  |  |
| <b>Output Ratings</b>                        |                                   |  |   |  |  |
| Voltage                                      |                                   | 0~35V  |   |  |  |
| Current                                      |                                   | 0~22.5A  |   |  |  |
| <b>Ripple and Noise (20 Hz to 20 MHz)</b>    |                                   |  |   |  |  |
| Voltage (root mean square value)             |                                   | <10mVrms   |   |  |  |
| Voltage (peak-to-peak value)                 |                                   | <20mVp-p   |   |  |  |
| Current                                      |                                   | <8mA rms   |   |  |  |
| <b>Load regulation</b>                       |                                   |  |   |  |  |
| Voltage                                      |                                   | 0.1%   |   |  |  |
| Current                                      |                                   | 0.1%   |   |  |  |
| <b>Line regulation</b>                       |                                   |  |   |  |  |
| Voltage                                      |                                   | 0.1%   |   |  |  |
| Current                                      |                                   | 0.1%   |   |  |  |
