

## About MNIT Jaipur

Malaviya National Institute of Technology Jaipur formerly known as Malaviya Regional Engineering College was established in 1963. On 15th August 2007, the institute proclaimed the status of the 'Institute of National Importance' through the Act of Parliament. The institute is fully funded by the Ministry of Human Resource Development (MHRD), Government of India. The institute offers undergraduate and postgraduate courses (B.Tech., B. Arch/ M.Tech./ M.Plan /MBA/M.Sc. & Ph.D.) to about 4500 students, in leading fields of engineering, architecture, sciences, management, humanities, social sciences, etc. In addition to regular teaching, the institute is actively engaged in research, consultancy and developmental activities.

## About the Course

Universal design is the design of buildings, products or environments to make them accessible to all people regardless of age, disability or other factors.

Department of Architecture & Planning is organizing ATAL sponsored five day Faculty Development Program on "Universal Design Approach for accessibility in Built Environment". This FDP would enhance the sensitivity of the participants for inclusiveness, accessibility and universal design approach. Universal design is itself explained in a diversity of ways across the world: "design-for-all" and "inclusive design" are other terms used. Designing universally means being inclusive of a diverse population. Universal Design is an international movement recognized by the World Health Organization, and the United Nations through the Convention on the Rights of Persons with Disability (UNCRPD). They both cite universal design as a way to create greater social and economic inclusion for everyone. India is the signatory to UNCRPD and is committed to make inclusive provisions regarding universal design. This FDP focuses on improving the understanding of participants about the current and future prospects of universal design in India.

## Course Objectives

- To sensitize the participants about Universal Design approach, its theory and integration with built environment and buildings.
- To review the impact of Universal Design on society and well being.
- To discuss the Govt. initiatives in the field of Universal design and built environment.
- To develop understanding about evaluation tools for universal design.
- To impart hand's on training on access audit and evaluation of universal accessibility in built environment.

## About AICTE-ATAL

The objectives of AICTE Training and Learning (ATAL) Academy are: To set up an Academy which will plan and help in imparting quality technical education in the country and to support technical institutions in fostering research, innovation and entrepreneurship through training. To provide a variety of opportunities for training and exchange of experiences, such as workshops, short term courses, orientations, learning communities, peer mentoring and faculty development programs. To support policy makers for incorporating training as per requirements.

**MNIT Jaipur announces  
ATAL sponsored  
Faculty Development Program (Hybrid mode)**

on

**UNIVERSAL DESIGN APPROACH FOR ACCESSIBILITY IN  
BUILT ENVIRONMENT**

**3<sup>rd</sup>– 14<sup>th</sup> October 2022**

**Organized by**

**DEPARTMENT OF ARCHITECTURE  
& PLANNING**

**MALAVIYA NATIONAL INSTITUTE OF  
TECHNOLOGY JAIPUR**
