About the Workshop

Standing tall at the cusp of booming economy, rapidly advancing technology, and transforming education, India's voice in the coming years will unarguably be of planetary proportion. It would not be an exaggeration to mention that as Independent India approaches its centenary in 2047, it would be leading the world on all fronts—Educational, Technological, Social, and Economic.

The recent developments in India's Educational Sector, with the introduction of National Education Policy (NEP)-2020 are the testimony of the fact that our talent and intellectual capital would be leading the world, and our educational institutions would serve as the attractors for students around the world. Recently, the nation not only manufactured, but also exported the lifesaving, homeland manufactured vaccines and drugs to around hundred developing countries during the Covid-19 pandemic.

As India is already emerging and shaping itself in the most transformative ways, this workshop will provide various parameters to measure the nation's progress by 2047 that will ultimately define our country's glorious development as it approaches its centenary. The workshop will also highlight more areas, as detailed below, where the citizens can contribute to help developing India reach its greatest potential.

COMMITTEE

CHIEF PATRON

Dr. R. K. Tyagi

Chairman, Board of Governors (BoG) MNIT Jaipur & NIT Uttarakhand

PATRON

Prof. Narayana Prasad Padhy

Director | MNIT Jaipur

Prof. Lalit Kumar Awasthi

Director | NIT Uttarakhand
