ABOUT MNIT JAIPUR

Established in 1963, Malaviya National Institute of Technology has a great history of being evolved from Malaviya Regional Engineering College to Malaviya National Institute of Technology in 2002 and then to a Institute of National Importance under an Act of Parliament in 2007. Located in the heart of Pink City of Rajasthan, Jaipur, it is one of the most premier institutes of the nation, having a campus area of more than 317 acres. It has been serving to the future of the nation and the world, with a legacy of producing world class engineers, managers, researchers and leaders for more than 60 years now. MNIT Jaipur has a mission to create technical manpower for meeting the current and future demands of the industry.

Is it the final ASCEND
or the fall before REBIRTH ?

XENOVITY

THE SPHINX SAGA

In 2023, EVOLVE

The awakening began.
Humanity stood at the
crossroads of nature
and machine.
The question wasn't how
far can we go, but what
are we becoming?

In 2024, ASCEND

With evolution came
elevation — into infinite
space. We crossed
thresholds, where rogue
intelligences scattered
in search for meaning,
identity, and control.

Now it's XENITH

The multiverses collapse
into one final frontier. A
storm is brewing in the
sky, forcing coexistence
or collapse and only
those who dare to shape
the future will survive it.
